

# AFEdemy's Newsletter #5

**THIS NEWSLETTER INFORMS YOU ABOUT  
THE RESULTS OF OUR RESEARCH PROJECTS**

## Join the DigitalScouts workshp!

Are you eager to learn about digital literacy, how to create a training offer using the business model canvas and communicate your offer?

AFEdemy is organising a free workshop for the Digital Scouts project on the 11th of February! Join us to evaluate the e-learning platform and learn about the training offered online. If you are interested, click the button below to get more information and contact us to participate in the workshop!

## We have started a new project!

The Age-friendly Balkans Connected Network (ABC) aims to engage eco-systems in the Western Balkans and provide a framework of age-friendliness assessment. Learn about best practices on cross-cultural research design and updates on a manual for data collection by following the latest news about the ABC project!

## AGE-MEDU: Education for nurses and techs

More training in gerontology and geriatrics is essential for the healthcare system. The new project AGE-MEDU adresses this issue by modernising the curricula, with a particular focus on the management of complex conditions like dementia. Are you interested? Read more about the project here!

## The SACRED project kicks off!

Are you a healthcare student and professional, focusing on caring for older adults with dementia and multiple forms of disabilities? Then the SACRED project may catch your attention! With several partners from higher education we will develop an E-Learning Platform to improve health care for people with dementia and multimorbidity. The project was recently kicked off in Rotterdam! Read more about it by clicking the button below.
